

- **Let's have a safe workshop!**

FUJIFILM Electronic Materials

Advanced Lithography Workshop 2021

- **Vaccination – Recovery – PCR test** **you'll need one of it**

- We will have your vaccination certificate scanned before entering the venue.
- A full immunization needs to be proven by a EU certificate.
- We will need to scan your proof of recovery
- A full immunization needs to be proven by a EU certificate.
- Please present a test certificate newer than 48h for scanning at the entrance.
- An antigen test will not be acceptable for this event. The false-negative rate for the current variants is too high.

- **Our other measures to keep us all safe**

Some of these measures can be relieved depending on the current incidence levels. All attendees are asked to adhere to the pandemic best-practices.

measure
ventilation during breaks
face mask while walking
seating distance
contact tracing with QR code
limited attendance
one-way routing (optional)
disinfectant stations
